## Assessing Nocturnal Sleep/Wake Effects on Risk of Suicide (ANSWERS) Study

Welcome to the ANSWERS Survey!

Thank you very much for your interest in our study. Our goal is to help determine how sleep and circadian rhythms affect an individual's risk for suicide and other negative mental health outcomes. Hopefully, your answers will help us identify factors that can reduce risk or prevent suicide.

## Instructions

Thank you for agreeing to fill out this survey! This survey could take up to one hour to complete, so please make sure you have enough time to answer all the questions. Only complete surveys will be able to be used.

When you take the survey, you may notice that some of the items are repetitive. This is because the survey is made up of standard questionnaires often used in research. Thus, some questions may overlap, but to ensure the data is accurate we must include all the questions in the original questionnaire.
The purpose of this study is to explore how sleep and circadian rhythms affect mental health, particularly suicidal thoughts and behaviors. We believe that sleep is an important part of keeping people healthy and well, and your answers will help us determine exactly how sleep contribute to mental wellness.

Thank you for helping us with this project!

## Are you interested in future suicide prevention research?

The ANSWERS survey is Phase I of an ongoing project to determine how sleep and sleeplessness increases risk for suicide. ANSWERS Phase II involves in-lab measurement of brain activity by electroencephalography (EEG) during the day and at night to see how brain activity changes over time. There is no compensation for completing Phase I.

Depending on your responses to the survey questions, you may be eligible to participate in Phase II. If you choose to participate in Phase II, you would be compensated $\$ 50$ dollars for completing all Phase II study procedures.

If you are eligible, would you like to be contacted and provided further information about the ANSWERS Phase II study?
[ ] Yes, please contact me about the ANSWERS Phase II study
[ ] No, please do not contact me about the ANSWERS Phase II study

If you would like to be contacted, please enter your email here.

## Munich Chronotype Questionnaire

In this questionnaire, you will report on your typical sleep behavior over the past 2 weeks. We will ask about workdays and work-free days separately. Please respond to the questions according to your perception of a standard week that includes your usual workdays and workfree days.

1. I have a regular work schedule (this includes being, for example, a housewife or househusband):
[] Yes I work on []1 []2 []3 []4 []5 []6 []7 day(s) per week.
[] No
If your answer "Yes, on 7 days" or "No", please consider if your sleep times may nonetheless differ between regular 'workdays' and 'weekend days' and fill out the MCTQ in this respect.

Please use 24-hour time scale (e.g. 23:00 instead of 11:00 pm)!

## 2. Workdays

Image 1: I go to bed at $\qquad$ o'clock.
Image 2: Note that some people stay awake for some time when in bed!
Image 3: I actually get ready to fall asleep at $\qquad$ o'clock.

Image 4: I need $\qquad$ minutes to fall asleep.

Image 5: I wake up at $\qquad$ o'clock.

Image 6: After $\qquad$ minutes I get up.

I use an alarm clock on workdays: [] Yes [] No
If "Yes": I regularly wake up BEFORE the alarm rings: Yes No
3. Free Days

Image 1: I go to bed at $\qquad$ o'clock.

Image 2: Note that some people stay awake for some time when in bed!
Image 3: I actually get ready to fall asleep at $\qquad$ o'clock.

Image 4: I need $\qquad$ minutes to fall asleep.

Image 5: I wake up at $\qquad$ o'clock.

Image 6: After $\qquad$ minutes I get up.

My wake-up time (Image 5) is due to the use of an alarm clock: [ ] Yes [ ] No
There are particular reasons why I cannot freely choose my sleep times on free days:
[] Yes If "Yes": [ ] Child(ren)/pet(s) [] Hobbies [] Others
[]No

## Work Details

## The Interpersonal Needs Questionnaire

The following questions ask you to think about yourself and other people. Please respond to each question by using your own current beliefs and experiences, NOT what you think is true in general, or what might be true for other people. Please base your responses on how you've been feeling recently. Use the rating scale to find the number that best matches how you feel and circle that number. There are no right or wrong answers: we are interested in what you think and feel.
